2. Explain Demographic Transition Theory with proper suitable diagram
3. The role of Industry sector in Indian economy with special focus on MSME
4. Elaborate the difference between Economic development and Economic Growth.

Q. 5. Case study (15)

India has implemented various policies and programs aimed at achieving sustainable economic development. Initiatives like the Make in India campaign have encouraged manufacturing and investment, while Digital India focuses on improving connectivity and digital infrastructure. Additionally, schemes like Startup India aim to foster entrepreneurship.

Despite these measures, issues such as unemployment, regional economic disparities, and challenges in infrastructure development continue to hinder progress.

Questions:

1. Evaluate the effectiveness of the Make in India, Digital India, and Startup India initiatives in driving India's economic growth.
 2. Identify the primary challenges that have limited the impact of these initiatives and suggest measures to address them.
 3. Discuss the role of government policies in ensuring balanced and inclusive economic development across regions in India.
